

# Primary Subject Leader Networks 2020 - 2021

**GEORGE SPENCER** TEACHING SCHOOL ALLIANCE

**Our Primary Subject Leader Network provides an opportunity for subject leaders to keep up to date with current thinking about the development of their subject and to network, discuss central themes and share good practice.**

Led by SLEs from across our Teaching School, this is an great opportunity to reflect on excellence in practice and continue to grow as leaders of learning in our settings. In 2019-2020, our Foundation Subjects Networks (History, Geography, Art and Science) were led by **Secondary Specialists** so that all leads grow and develop in their subject knowledge and subject specific pedagogy.

**New to 2020 - 2021:** To further develop our offer in 2020-2021, we are now offering a new addition – Outdoor Learning.

## Subject Leader Meetings include: **Foundation Subjects**

- **English**
- **Computing**
- **Science**
- **Outdoor Learning**
- **History**
- **Geography**
- **Art**

100% of Geography attendees said that the network gave them increased knowledge and new ideas to implement in their own school

Each network team meets **3 times per year** – each session is led and designed by an experienced SLE to ensure that current topics, changes in education and school specific needs are met.

The sessions also cover tools that subject leads can use and promotes reflection on their effectiveness as in school leads so that all participants grow in their roles.
